SOARING BY THE SEA FOUNDATION

Founded in January of 2020, the foundation is dedicated to preserving our military heritage, honoring our veterans, and educating our younger generations, while supporting the local and aviation communities. Family owned and operated, Soaring by the Sea Foundation is headquartered in Eugene, Oregon, and is a 501(c)(3) non-profit organization.

Soaring by the Sea Foundation offers customized sponsorship opportunities that will connect with your target market, promote a positive image, increase brand recognition, and engage audiences interested in aviation and military heritage. You will receive year-long exposure through our advertising including logo inclusion and link to your website on the Soaring by the Sea Foundation's website. Your logo will be proudly displayed in local event advertising, on signage at airshows, and all events the aircraft attends.

World War II PBY Service

World War II PBY and Navy Veterans

The PBY was originally designed to be a patrol bomber, an aircraft with a long operational range intended to disrupt enemy supply lines. Flying boats had the advantage of not requiring runways, having all waterways available.

EXECUTIVE DIRECTOR - COY PFAFF

After serving in the United States Marine Corps, Coy was drawn to a new mission. During a visit to France in 2019, a 1943 World War II PBY-5A Catalina spoke to Coy and the aircraft was purchased. Instrumental as part of the PBY flight crew that ferried the aircraft to the United States from France, Coy is looking to inspire the next generation of pilots, aviation enthusiasts, veterans, and World War II historians with the 1943 PBY-5A Catalina “Princess of the Stars.”

Leading the restoration efforts of returning the aircraft to its original military configuration, Coy, alongside chief pilot Peter Houghton, have given new life to a historic aircraft and thousands of veterans. A passion for history, historical sites, veterans, and the community drives Soaring by the Sea Foundation to share the Princess of the Stars with all.

To all men and women in uniform serving today and to those who have served in the past, Soaring by the Sea Foundation thanks you for your service.

TESTIMONIALS

May 20, 2021

FORD ISLAND, HAWAII

Dear Coy,

As we emerge from the challenges and sadness that surrounded all of us throughout 2020, I wanted to take a moment to acknowledge the tremendous experience you delivered on behalf of the Soaring by the Sea Foundation. Our plans to commemorate the 75th anniversary of the end of WWII were lofty; the impact we sought to deliver was equally ambitious. Had these same plans been executed in 2019, we believe all would have been achieved.

That said, we want to thank you and acknowledge your relentless commitment to sharing the history and the beauty of a flight in a historic PBV. Your iconic aircraft, expertly flown so graciously off the waters of Pearl Harbor, immediately conveyed the spirit and the history we sought. The PBV flew in and out of Pearl Harbor throughout WWII. Long gone from Hawaii, seeing it again brought back very meaningful memories.

You and your pilot team went out of your way to accommodate every possible passenger, onlooker, veteran, and child for whom this aircraft carried significance. Our local press members were also drawn dramatically to the PBV. When seeking media coverage for our event, the question posed by every news outlet was the same; "Can we experience a water take-off and landing in the PBV?" For more than a week, our event was front page news – and in that coverage, the PBV was front and center. I still remember your immediate reaction to the request of a young boy who admired the aircraft and its ability to land on water –providing him and his entire family with a special tour of the aircraft, meeting the pilots and crew, was a highlight.

A review of the 75th Commemoration clearly highlights the importance of your PBV and the impact you and your team had on our community. The history, the flight tours, the ground tours and presentations combined to inspire and engage veterans, families, the media, and the general public. We can't thank you enough for joining us and for sharing your aircraft and our team.

Mahalo
